

Jacob Lyons
Communications VP
Fundraising VP

For next year I am running for Communications VP (CVP) and would drop down to Fundraising VP if I don't get CVP. I want to run this year because I have had a lot of fun on the board the past two years and want to continue having great experiences. I think I am qualified for CVP because I have experience in this area from participating in the multimedia/broadcast program at my school.

Questions:

1. Describe your Youth Group experience (You may include how long have you been involved in ATID/TOUCHY and Temple Dor Dorim, your best experience, and/or what TOUCHY means to you?)

- I have participated in youth group events since kindergarten and have held a board position since 7th grade in ATID. I have made so many great friendships through youth programs and I look forward to many more.

2. What are your goals for TOUCHY as it applies to the position you are running for?

- If elected as CVP, I would want to make sure that everyone knows when and where (if we are back in person) all our events are happening.

3. Describe your past leadership experience. (Can be an experience outside of TOUCHY.)

- My past youth group board positions were ATID board member in 7th and 8th grade, underclass representative in 9th grade and FVP this year. Outside of youth programs, I served on my schools student government in 5th grade and a public relations director on my robotics team this year.

4. Communications VP - How would you empower other Board Members and TOUCHYites to be part of the communications process?

- I would make sure to ask everyone's opinions on various matters and reach out to them as needed throughout the year.

Fundraising VP - Design a fundraising program TOUCHY could implement in the coming year.

- A fundraising program TOUCHY could do would be to sell fun treats throughout the year during religious school for the other grades. We could sell chocolate dreidels around hanukkah, chocolate covered raisins and strawberries around Tu Bishvat and other things like that.
